[SPECIAL DISPATCHES TO THE RECORD-UNION.]

YESTERDAY'S BASEBALL.

The Washington's Pitcher Gets Rattled and Loses a Game.

WASHINGTON, April 26th.—The Bostons defeated Washington again to-day, chiefly on account of the pitching of Gilmore, who had no command over the ball whatever. He made two wild pitches that allowed three men to cross the plate. He hit Sutton while at the bat, and sent four men to bases on balls. Besides this, he kept Murray constantly dancing behind the plate, and muffed a ball, which, had he caught it, would have deprived the visitors of two runs. Madden, on the other hand, pitched a good, steady game, and was well supported. Score—Washington, 2, Boston, 9.

CHICAGO DEFEATS PITTSBURG.

PITTSBURG, April 26th.—The Pittsburgs were defeated to-day by the superior work of the Chicagos, who outplayed them at every point. The game was won in the fourth inning, by heavy batting, Farrell, Anson and Burns knocking out singles, Earling a two-bagger and Sullivan a home run. The feature of the game was Farrell's catching in the right field. The weather was bright and warm, and the attendance 4,000.

THE HOOSIERS' FIRST GAME.

INDIANAPOLIS, April 26th.—The crippled Indianapolis team to-day won its first game of the season, the champion Detroits being the victims. The feature of the game, aside from hard and timely hitting by Denny, Buckley and Shomberg, was the splendid style in which Shreve fielded, several of his assists and one put-out being on hard line-drive and grounders. Score—Indianapolis 8, Detroit 3.

THE GIANTS DOWN THE PHILLIES.

NEW YORK, April 26th.—The New Yorks redeemed themselves to-day. They downed the Phillies in fine style, and refuted the taunts that they needed batters in their club. They scored three home runs. Crane was put in the box for New York, and did fairly good work. He was poorly supported by Ewing. Gleason pitched for the Philadelphias, and at times was hit hard. Shriver supported him well. Few brilliant plays were made, and little enthusiasm was manifested, except over home runs. Score—New Yorks 11, Philadelphias 5.

ASSOCIATION GAMES.

KANSAS CITY, April 26th.—Kansas City 3, Louisville 7.
ST. LOUIS.—St. Louis 3, Cincinnati 4.
CLEVELAND—Baltimore 5, Brooklyn 3.

FORTUNATE ESCAPE.

Nearly a Hundred People Blown Up, But Nobody Killed.

CHICAGO, April 26th.—An explosion that pitched seventy people into the air, throwing one man fifty feet, wrecked seventeen plate-glass windows, ruined $35,000 worth of clothing, damaged buildings $150,000, and caused a stampede of hundreds of people from upper stories of tall buildings, occurred in the basement at State and Jackson streets, this evening. Queer enough, no one was killed, although two or three may be fatally injured.

A GAS-MAIN PUNCTURED.

Two workmen were drilling a hole across the street from the basement to make a conduit for electric wires, and accidentally punctured a gas-main. They lit a candle to see what was the matter with the drill, and the next instant they, seventy-odd clerks and customers in a clothing store overhead, the massive plate-glass front and great piles of ready-made clothing were mixed up in an almost indescribable mass with broken timbers and falling plaster, while the people for blocks around thought an earthquake had occurred, and rushed to the scene.

The fire was quickly extinguished by the department. Two workmen in the basement were found to be very badly injured, and three or four clerks in the store above were injured internally. One of them, George Dunlap, when the explosion occurred, was standing on a hot fire-register and was thrown fifty feet, landing on a pile of goods. His back is badly injured.

CHRISTIAN WORKERS.

Annual Session of the Women's Foreign Missionary Society.

ASBURY PARK (N. J.), April 26th.—The eighteenth annual Assembly of the Women's Foreign Missionary Society of the Presbyterian Church is being held in Educational Hall. The Society embraces the Presbyterian Churches of New Jersey, Pennsylvania, Delaware, Maryland, eastern Ohio and California. Four hundred delegates are present. The annual address was made by Mrs. W. E. Schenck, of Philadelphia. The Treasurer's report showed that the Society had expended last year $254,000.

INDIANA DEMOCRACY.

Cleveland and Gray Indorsed for the Presidential Ticket.

INDIANAPOLIS, April 26th.—The Democratic State Convention was called to order at 10 o'clock. The Committee on Permanent Organization then reported, recommending Charles I. Jewett for Chairman, and Daniel W. Voorhies, David Turpie, J. G. Shanklin and John H. Bass for delegates-at-large to the National Convention. The district delegates are the same as given out last night, and after which the various committees were announced and the report unanimously adopted.

Chairman Jewett then addressed the Convention. In the course of his remarks he paid a glowing tribute to the administration of President Cleveland, and when he suggested that the next ticket might be Cleveland and Gray, he was greeted with wild cheers and continued applause. The same was the case when the name of Hendricks was mentioned.

The platform adopted was of the usual order, indorsing the Administration, the free trade message, etc.

Courtland C. Watson was nominated for Governor. The nomination was made unanimous.

Wm. R. Myers was nominated for Lieutenant-Governor.

Robert Myers was nominated for Secretary of State; for Auditor, Charles A. Munson; for Treasurer, Thomas B. Byrnes. John R. Wilson was named for Attorney-General, and A. F. Griffith for Superintendent of Public Instruction, after which the Convention adjourned.

HE HAD 'EM.

A Federal Official in Denver Attempts Suicide While Delirious.

DENVER, April 26th.—Ben. S. Robbins, Assistant United States District Attorney for Colorado, and formerly a State Senator in Kentucky and a prominent politician of that State, attempted suicide in his room this morning by cutting his throat. Robbins has been drinking heavily of late, and at the time of the attempt on his life was suffering from a slight attack of delirium tremens.

It is reported that domestic troubles, together with the refusal of his wife to come to Denver to live, drove him to drink and the attempt on his life. The physicians are of the opinion that he will recover. His family in La Grange, Ky., have been notified.

GOD SPEED HIM.

Anarchist Schwab Likely to Go Back to Germany.

NEW YORK, April 26th.—Justus Schwab, the Anarchist leader, has been pardoned by Emperor Frederick III., of Germany, for having deserted the army in Prussia. The news came to him a day or two ago by a cable from his father announcing that the name of Justus Schwab had appeared in the long amnesty list, issued as a memorial to Emperor William. As desertion is the only offense of Justus Schwab, he is now at liberty to return to the fatherland, should he wish. When asked by a reporter regarding the matter Schwab declined to say anything, but evidently was much pleased.

A QUARRELING COUPLE.

California's Glorious Climate Causes a Domestic Explosion.

[*Copyright, 1888, by the California Associated Press.*]

NEW YORK, April 26th.—W. S. Wyse, Advertising Agent for the Harpers' publishing house, who has $20,000 annual income, recently obtained an injunction to restrain his wife from selling a valuable house and lot here which he deeded to her for one dollar. His wife was in San Francisco when the injunction was granted, but returned immediately. To-day a motion was made in Court to have the injunction vacated. Last year Wyse and his wife went to San Francisco, stopping at the Palace Hotel. The wife alleges that he began spending money with dissolute companions, and she left him and returned to New York.

Wyse's attorney says his wife induced him to convey the property to her by false pretensions of love; also, that in the Palace Hotel she put his trunks out of the room and locked the door on him. She complained because he only gave her $12,000 per year. He furnished her with diamonds, jewelry, horses, and dresses made by Worth in Paris, and still she was unhappy. Wyse obtained the injunction fearing that she would sell the property at a sacrifice. The decision was reversed.

WIPED OUT.

The Business Portion of Central City, Dak., Destroyed by Fire.

ST. PAUL, April 26th.—A special to the *Pioneer Press* says: Central City was destroyed by fire early this morning. Not a store nor shop is left standing, and 130 buildings are burned.

Fifty families are left homeless. Deadwood is sending food. The loss is $250,000, and the insurance $25,000.

The Washington Races.

WASHINGTON, April 26th.—This was the opening day of the meeting at Ivy City, and the fine weather brought out a good attendance.

The first race, for all ages, five-eighths of a mile, was won by Britannic, Vance second, Petrocles third. Time—1:04.

The second race, one mile, was won by Boaz, Fanor second, Valiant third. Time—4:46.

The third race, one mile handicap, had ten starters. Bourbon won, Bess second, Specialty third. Time—1:46.

The fourth race, three-quarters of a mile, had fourteen starters. Guardsman won, O'Fallon second, Rosalie third. Time—1:17.

The fifth race, full course handicap steeple chase, had eight starters. Bob Miles won, Elphin second, Will Davis third. Time—4:30.

The Grant Memorial Dinner.

[*Copyright, 1888, by the California Associated Press.*]

NEW YORK, April 26th.—A favorable response has already been received from one hundred guests invited to the dinner in honor of General Grant. Chauncy M. Depew will reply to the toast of "Our Country." General Sherman says: "There has been so spontaneous an outpouring of good-will as to encourage the hope that this event will lead to that new era of harmony toward which General Grant had looked."

Another Walking Crank.

[*Copyright, 1888, by the California Associated Press.*]

NEW YORK, April 26th.—Neil T. McCafferty, the pedestrian, started this afternoon at 3:30 o'clock for a 3,000 mile walk to San Francisco. McCafferty intends to cover thirty-eight miles daily. His route, as mapped out, will be through New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Wisconsin and Minnesota, and then in a direct line to the end of the course. Five thousand dollars depends on his accomplishing the feat.

The Flag Question in New York.

[*Copyright, 1888, by the California Associated Press.*]

ALBANY, April 26th.—Assemblyman Crosby introduced a bill to-day providing that no flag but the stars and stripes shall be displayed on any public building in the State, and secured its passage at once to a third reading. This caused a great hubbub, and the bill was then defeated by a vote of 104 to 4. Two New York city members voted for the bill.

Increase of Traffic.

[*Copyright, 1888, by the California Associated Press.*]

NEW YORK, April 26th.—It is reported here that the Fort Worth and Denver Railroad is about to make four steamers per week available between New York and Gulf points, also that arrangements have just been made by which the Texas-Central gets the right of way over the Texas and Pacific Road to a connection with the Fort Worth and Denver Road.

The Scot on His Dignity.

NEW YORK, April 26th.—Andrew Carnegie says that no further conference would be held with his 5,000 striking iron-workers at Pittsburg. "No conference is possible," he declared. He said this despite the fact that Rev. Father Hickey and Rev. Dr. Boyle—the former a Catholic and the latter a Presbyterian clergyman of Braddock, Pa.—both interested in the labor troubles, were going to see him.

A Big Trot Talked Of.

NEW YORK, April 26th.—The New York *Sportsman* has offered a special stake for Harry Wilkes, Belle Hamlin and Prince Wilkes, being a sweepstakes of $1,000 each, with $3,000 added money, the race to be trotted over the Rochester Driving Park on July 4th, and the winner to take $5,000, the second to save the stake.

Rumored Fatal Explosion.

ANTIGO (Wis.), April 26th.—It is reported that a freight train ran into a work train between Bernamwood and Eland Junction, on the Milwaukee, Lakeshore and Western road at 9 o'clock this morning, and that ten persons are either killed or severely injured. There are no particulars.

Sugar Beets in Germany.

[*Copyright, 1888, by the California Associated Press.*]

NEW YORK, April 26th.—Private mail advices from Germany assert that the sugar-beet crop is very backward, something like three or four weeks late, and this will increase the danger from frosts in the fall just previous to maturity.

Greek Sailors Coming.

NEW YORK, April 26th.—Among the passengers on the Chateau Lafitte, from Bordeaux to-day, were 100 swarthy Greek sailors on their way to San Francisco to embark on a war vessel recently purchased in this country by the Greek Government.

Brewers' Lockout Inquiry.

NEW YORK, April 26th.—The State Board of Mediation and Arbitration met here to-day and began an investigation into the brewers' lockout. The bosses denied that the Board had the power to investigate their private affairs. The Board decided otherwise, and the bosses submitted under protest.

A Labor Convention.

CHICAGO, April 26th.—The Union Labor party of Illinois held a rather stormy State Convention at Decateur, nominated a full State ticket, selected delegates to the National Convention, and adopted a platform.

Damaging Frost in Virginia.

NORFOLK (Va.), April 26th.—A heavy frost in this section last night damaged the early fruits and vegetables from a half to three-quarters of a million dollars.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

CLEVELAND'S THREAT.

The President's Method of Getting Even on the Republican Senate.

[*Copyright, 1888, by the California Associated Press.*]

WASHINGTON, April 26th.—The President is angered at the order of the Republican Senate caucus, which decided that the fisheries treaty should not be ratified. He has threatened, if the Senate rejects the treaty, to put into effect immediately the Canadian retaliatory resolutions adopted by Congress at the last session. Those resolutions, by proclamation, can be made to prohibit all commercial relations between the United States and Canada. The President feels that in presenting the treaty for a settlement of the Atlantic fisheries dispute, he has made an offset to the retaliatory acts of Congress. He says that if the Senate is not willing to consider the treaty he is absolved from responsibility for the retaliatory legislation, and can conscientiously put the Act into effect at any moment.

The value of the fisheries trade in Massachusetts amounts to $3,000,000 per annum, in round numbers. The total value of Massachusetts exports and imports is over $71,000,000. The total trade of the United States with Canada is about $100,000,000 per annum, but that does not include goods that come from the Pacific coast via the Canadian Pacific and Michigan Southern Railroads in bond. If the retaliatory resolutions adopted by Congress were put in force all railroad business between the two countries, except that of passengers and mails, would be put at an end. No coal could be brought from British Columbia to the Pacific States.

The President will only enforce the retaliatory legislation in the event that the Senate refuses to ratify the treaty. He is afraid the Republicans in the Senate will not take any action on the subject until the next session of the present Congress, when it may be too late for him to put the retaliatory bill into effect.

WHY IT WAS.

How the Decision was Reached in the Vandever Case.

WASHINGTON, April 26th.—In reaching a decision in the California contested election case of Lynch vs. Vandever the House Elections Committee held—and it is probable this position will be strongly set out in its report—that the election officers acted improperly in rejecting the votes of such persons as attempted to register by affidavit after the expiration of the time for registration fixed in the published notice. It was held that the registry officers acted outside of authority in limiting the time for registration to a shorter time than that fixed by the State law, and the affidavits of those persons who failed in registering in the appointed time, although presented and collected by persons not legally qualified, should have been received and the persons allowed to cast their votes. The votes rejected by the election officers were counted by the House Committee, with the result that they reduced Vandever's majority to about thirty votes, but as this was not sufficient to reverse the result the committee declared in favor of the claims of Vandever.

LABOR'S PLAINTIVE CRY.

Manufacturers Complain Against the Mill's Tariff Bill.

WASHINGTON, April 26th.—The Republican members of the Ways and Means Committee met to-day for the purpose of hearing about a dozen persons representing manufacturing interests and labor organizations. The statements of these persons, in brief, were to the effect that they desired to take exception to the remarks on the floor of the House by friends of the Mills bill, that the laborers and manufacturers derive no benefit from the present tariff law.

They also made energetic protest against the action of the Ways and Means Committee in refusing to hear from representatives of interests which would be affected by the passage of the pending bill.

INFORMATION WANTED.

Some Conundrums Propounded to a Cabinet Official.

WASHINGTON, April 26th.—The House Committee on Ways and Means has agreed to Breckenridge's resolution calling on the Secretary of the Treasury for the following information:

1. What number of persons in each of the gainful occupations were engaged in branches of which the product of a like kind could be imported from a foreign country in any measure or quantity sufficient to call for the attention of legislators?

2. What number in each category might be considered wholly free from foreign competition?

3. What number of persons might be considered in some small measure subject to foreign competition?

4. What number of persons is represented by the export of products of agriculture, manufactures and mining, to be estimated upon the relation of the value or quantities of such exports to the value or quantity of the total product? In other words, the number occupied in production for export?

CONGRESSIONAL PROCEEDINGS.

The Senate.

WASHINGTON, April 26th.—In the Senate to-day the conference report on the House joint resolution accepting the invitation of the French Republic to take part in the International Exposition at Paris in 1889 was agreed to. It fixes the appropriation at $250,000.

The Senate then resumed consideration of the railroad land forfeiture bill, and Palmer proceeded to argue against all the amendments as to the lands granted to the State of Michigan for railroad purposes, and by the Government of that State deeded to the Lake Superior Ship Canal Company.

After a speech on the general land policy of the Government by Dolph, the bill was laid aside without action.

The Senate passed a number of public building bills, among which was the bill appropriating $50,000 for a public building at Boulder, Colorado.

Adjourned till Monday.

The House.

WASHINGTON, April 26th.—In the House to-day the Senate bill was passed for the relief of the Omaha tribe of Indians in Nebraska and to extend the time of payment to purchasers of the lands of said Indians.

The House then went into Committee of the Whole on the tariff bill.

Buchanan of New Jersey opposed the bill, which he said struck a blow at almost every industry in his district. He denounced in general and in detail the provisions of the bill.

Hemphill of South Carolina said he could not conceive of a system more unjust, unreasonable, unfair and unrighteous than the protective system. He earnestly appealed to every gentleman who had the faintest conception of justice to lend his aid to the pending bill.

Osborn of Pennsylvania submitted an argument against the bill, which he characterized as a blow at the dignity of American labor. He protested, in the name of Pennsylvania, against the passage of the bill, which would destroy its industries, impoverish its farmers and degrade its laborers.

Hudd of Wisconsin denied that the boasted system of protection had indeed protected American labor.

The committee arose and the House took a recess until 8 P. M. This evening's session is to be for the debate on the tariff bill.

The debate was resumed at the evening session, and was quite spirited. At 9:10 P. M. the House adjourned.

Not a Drawing Card.

[*Copyright, 1888, by the California Associated Press.*]

WASHINGTON April 26th.—The tariff debate was continued to-day. Several speeches for and against the bill were made to a beggarly array of spectators in the galleries, and but few listening members on the floor. To-morrow, it is understood, the discussion shall be laid aside and the river and harbor appropriation bill be taken up.

California Postal Changes.

[*Copyright, 1888, by the California Associated Press.*]

WASHINGTON, April 26th.—Raleigh Isaacs, vice Benjamin F. Bacon, resigned, has been appointed Postmaster at Baville, Amador county, California.

A new Postoffice has been established at Pine City, Mariposa county, Mary E. Thayer, Postmaster.

The Postoffice at Coffey's Cove, Mendocino county, is discontinued.

Dolph on Land Forfeiture.

[*Copyright, 1888, by the California Associated Press.*]

WASHINGTON, April 26th.—Senator Dolph of Oregon made a speech yesterday in favor of the land grant forfeiture bill, but took the ground that it should be so amended as to protect the homesteaders already there, and prevent the enormous lobby now here from robbing the settlers.

California Pensions.

[*Copyright, 1888, by the California Associated Press.*]

WASHINGTON, April 26th.—California pensions have been granted as follows: Joseph A. Lord, Santa Clara; Frederick Holzehauser, Sacramento; William W. Brown, San Francisco; Fleming Granville Hern, Yreka; Joseph W. Fitzgerald, Acampo.

A California Contract.

[*Copyright, 1888, by the California Associated Press.*]

WASHINGTON, April 26th.—The Secretary of the Treasury has awarded the contract for furnishing lantering and other metal work for the Point Sur lighthouse, California, to Corlain, Nutting & Son, San Francisco, at $8,700.

Mrs. Stanford's Illness.

[*Copyright, 1888, by the California Associated Press.*]

WASHINGTON, April 26th.—Mrs. Leland Stanford has almost entirely recovered from her indisposition. She sat up the greater part of this afternoon, and will probably be around as usual in a few days. She was threatened with malarial fever.

Indian War Claims Allowed.

[*Copyright, 1888, by the California Associated Press.*]

WASHINGTON, April 26th.—The estate of John A. Richards has been allowed $574 by the Indian Office in settlement for losses sustained by the Rogue River Indians in Douglass county.

SNAPPER GARRISON.

He Finds There Are No Flies on the Trainers on Del Paso.

In talking of the care taken by the Haggin people to keep their stable secrets to themselves, a reporter was recently told by a reliable gentleman the following account of the manner in which all racing information is kept solely for the benefit of the owners. Some six weeks ago "Snapper" Garrison, the famous crack jockey, who has been engaged to ride as head jockey for the Haggin stable during the coming season, arrived at the training grounds to ride the trials which determine which horses shall be sent East and which kept at home. "Snapper" was accompanied from New York by a special friend, who went up with him to the stable. As soon as Garrison's friend put his foot inside the grounds he was told he could not be admitted, and was advised to go back to New York for the benefit of his health. He did so. Next the "Snapper" was politely requested to leave his handsome gold timing watch, with split seconds, in the care of the manager of the place. When he rode the colts he never knew their names, as they were simply called No. 1, No. 2 and so on, nor did he know their breeding. Also he never knew what weight he carried in their trials, the horses being saddled entirely by the manager and trainer, and "Snapper" did not know if he carried 110 pounds or 130 pounds. Not a boy on the place had a watch nor knew the time of day. Garrison has returned to New York, and all he knows about the Haggin colts is that he rode some at the training grounds and that is all.

Depew Says He is For Blaine, if the Latter Will Run.

[*Copyright, 1888, by the California Associated Press.*]

NEW YORK, April 26th.—In an interview Chauncey M. Depew said: "Ten days ago the Convention pledged to support me for the Republican nomination. Newspaper men flocked to see if I was a candidate. I told them what I had so often said before. They made columns of it, and it went all over the country. There are 600 or 800 small conventions to be held, and it ought not to be necessary to state my position after each of them. I am not a candidate. Blaine is my candidate."

"You did not think Blaine meant to withdraw when he wrote the Florence letter?"

Depew—"I think he meant everything he said in that letter. He said he did not want to be nominated, but that was not saying absolutely that he would refuse the nomination."

"But it is said that Blaine will write another letter that will put him out altogether. Who would be your choice?"

Depew—"Well, having been trained as a lawyer, I never answer questions that are in the clouds. There is no need of it till they are on the table in front of us."

An Ancient Murder Case at Santa Cruz—Army Encampment.

[*Copyright, 1888, by the California Associated Press.*]

SANTA CRUZ, April 26th.—Jesse J. Graham, who will be tried for the murder of Dennis Bennett thirty-eight years ago, arrived this evening with Sheriff Meade, of Fresno, and attorney Russ Ward. A large crowd was at the depot, attracted through curiosity. Graham was cool and made some slight objections to going to jail. Finally he went. He says the deed was done in self-defense.

The case attracts unusual interest. It will be brought before the Superior Court to-morrow.

Word is received that the First Infantry, U. S. A., will encamp near this city June 14th, and remain three months.

Spoiling a Romance.

[*Copyright, 1888, by the California Associated Press.*]

NEW YORK, April 26th.—The story from London that Chamberlain will lead to the altar Miss Endicott is denied with emphasis by the family of the lady. A story of like import was in circulation while Chamberlain was in this country, and grew out of the fact that he met Miss Endicott frequently in society and he paid her a great deal of attention. It is thought the London story is a revival of this.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember, a few years ago the word "malaria" was comparatively unknown; to-day it is as common as any word in the English language; yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are intended to cover what our grandfathers called biliousness, and all are caused by troubles that arise from a diseased condition of the liver, which, in performing its functions, finding it cannot dispose of the bile through the ordinary channel, is compelled to pass it off through the system, causing nervous troubles, malaria, bilious fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

PETER COOPER'S SIGN BOARD.—The old four-story brick building on Burling slip, where Peter Cooper made his money, still bears his name on its sign boards, the most conspicuous being labeled, "Peter Cooper's Glue Factory." The interior of the building is as primitive in its arrangement as it was in Mr. Cooper's day. The rooms are partitioned off with rough whitewashed boards, and the office desks and their appointments are of the plainest, and date back to the time of their original owner.—*Harper's Bazar.*

NEVADA BANK.

The Great Bonanza Institution to Undergo Another Change.

SAN FRANCISCO, April 26th.—[Special.]—The fact was made public this afternoon of the complete reorganization of the Nevada Bank. A circular has been issued, addressed to the general public, from which the following is quoted:

> The present stockholders will eliminate and take to their own account all bad and doubtful assets and assume and pay all liabilities, except amounts due depositors, and will turn over to the new management sufficient good assets, to be approved by a committee of the new Board of Directors, to pay all depositors and cover the full capital stock at par, $3,000,000. Twenty-five thousand shares, of $100 each, will be taken by parties outside the present stockholders, payable at par upon demand, upon which the present officers and Directors will resign, and a new Board will be elected by the new stockholders. Subscription books will be opened at the Nevada Bank of San Francisco on Monday, April 30th, at 10 o'clock, for one week only, or subscriptions may be mailed to the bank or to the undersigned. If more than the full amount of stock offered is subscribed, the undersigned, having the matter in charge, reserve the privilege of awarding it in such manner as in their judgment is for the best interests of the bank.
>
> N. K. MASTEN,
> J. F. HOUGHTON.

Masten was formerly Cashier of the Nevada Bank, and J. F. Houghton is Manager of the Home Mutual Insurance Company. In an interview Mr. Houghton said: "Neither Mr. Masten nor myself are shareholders in the Nevada Bank, but we were requested by the people who own the stock to arrange the plan set forth in the circular. The idea is to popularize the Nevada Bank; to make of it a commercial bank, which it has not been heretofore, and to allow our merchants and people at large to come in and become owners in such an institution."

Manager Bigelow states as the reason for reorganization that the three men owning nearly all the bank stock—J. C. Flood, ex-Senator Fair and J. W. Mackay—cannot give that personal attention to the bank that it should receive, Flood on account of ill-health, and Fair and Mackay on account of other business.

More Remarkable Discoveries Made by Lieutenant Cushing.

SAN FRANCISCO, April 26th.—Frank Cushing, whose researches among the Zuni Indians of New Mexico have attracted wide attention, has been busily employed in the Salt River valley since leaving this city a few months ago. He has developed traces of canals over seven hundred miles in length, once used for both irrigation and navigation. One of these canals was seventy miles long. Mr. Cushing expects to visit this city soon.

THE CAREER OF A WONDERFUL MAN.

There is always a following for the man who succeeds in physical prowess. Boulanger for this reason is adored by the belligerent element in France. He stands to the pugnacious Frenchman as the ideal of a hero. As Othello was adored by Desdemona for the dangers he encountered and the victories he achieved, so is Boulanger admired by the Frenchmen for the wounds received in their service. He has been exceedingly adroit all his manhood life in keeping himself before the public eye as a warlike figure, and has never let slip any occasion to strike an attitude appealing to the military instinct. In the Franco-Prussian war, in the midst of so many striking heroic figures, he did not secure so much of attention, but he was nevertheless locally prominent, and spared no effort to have his daring and military skill blown about the public ears. He had laid the foundation for claiming attention by his conduct in Algiers, where he was famous for boldness, personal exposure and military daring. Unlike most great Generals, he is never modest in accepting the public acclaim. He never yet has retired from and put aside popular plaudits, but is always ready to appear to bow his acknowledgments and make the decorations that cover his breast jingle as he bends. He has been marvelously fortunate, for though often wounded and reckless in placing himself in the teeth of danger, he has never been brought to the very gate of death. There is no denying Boulanger's bravery, but it is his love of popular applause that robs his heroism of half its due.

Like some other of the men who have involved France as Boulanger now threatens to do, he is but half a Frenchman, his mother being English. It is the strain of cooler blood, possibly, that makes him calculating, while the more nervous impetuosity of the Frank impels him to daring deeds and to laugh danger in the face. He was graduated from the military school of St. Cyr, and had his first notable military experience in Algiers. There he was wounded by a lance in the side, but coolly drew out the head and continued his movements in the field. He put himself in the front in all fighting, and with foolhardiness exposed himself, telling his aids to convey information to him in the fighting front, instead of from it.

In the campaign in Italy he became a very prominent figure because of his reckless daring. It was in this campaign that a large ball was shot through his body, without seriously affecting a vital part. A saber cut laid open his skull, but he recovered; a bit of shell cut into his breast, but he merely staggered, and instantly resumed his former position; horses were shot under him so frequently, that in disgust he choose to move on foot rather than change saddles so frequently. In Cochin China he was wounded several times, but got off with a week's supervening fever. In China he was called by the Mongols the French Devil that none could resist, and his reckless daring astonished all who witnessed it. He was there wounded by a lance-thrust in the side that was too severe to be put aside. It compelled him to retire to France, and the war was over before he recovered. He has ever since limped and walked "one sided," so to speak. He was made Chief Military Instructor of the military schools, and in that position was admirably situated to win the affections of the military class. In the Italian campaign he won two promotions and the cross of the Legion of Honor, and in the Franco-German war he won four promotions, all for gallantry in action, and during these and the war in China was decorated so frequently that his narrow breast is scarce large enough to give place to the blazing stars, crosses, wreaths and regalia of "orders."

As a military man his courage, daring and material service to his country which won for him the Portfolio of the War Department under Grevy, are not to be denied or in any respect belittled. His military success and wonderful escapes from danger have, indeed, been such that it is no wonder the impressionable people of France believe him to bear a charmed life, and look upon him as the savior who is to restore to France her old possessions and wipe out in German blood the defeats of the past. Had he remained simply a General all would have been well; but when he became a politician, and as a radical Minister of War appealed to the old spirit of revenge that slumbers in the French bosom, he became dangerous to France. An impressive, often a fiery speaker, his untiring activity, his patriotic appeals to the glorious recollections of France, have put him upon the very crest of popular favor. In the army his name is revered for all he did for the French soldier when the armies of France were placed under his control. His scheme to reorganize the army, though distrusted by all the leading military men of the Republic, was popular with the people, and crowded the bill to abolish the volunteer system and establish universal military service, from the Chamber's calendar. He was able while controlling the army to introduce many reforms making the service of the soldier less irksome and unpleasant. He provided better beds for them, abolished many harsh regulations, introduced simplicity into drills, took the old-time knapsacks from the shoulders of the men, repealed the rule requiring the men to shave, abondoned drills and parades on Sunday, established new holidays, founded an officers' casino in Paris, and crushed out many abuses in the service and in the War Office. He secured the collection of much war material, had the order made for a new repeating rifle with which all French troops are to be armed, and he was actively engaged in strengthening fortifications, augmenting batteries, and introducing new explosives, when he was removed because of his political scheming.

But it is because his prominence is viewed as a threat of war that Boulanger, so great in many things, so weak and small in others, is dangerous to France. Because he is ambitious to rise upon his unquestioned military genius to political supremacy he is dangerous. Because he views Germany as prey to France whenever the opportunity presents to swoop down upon the Empire, his schemes are opposed to peace and restfulness in the Republic. Because he represents the element that ignores the horrors, prostration, interruption of industry and poverty that follow in the train of war, and conceals them all beneath the mantle of "glory;" because Boulanger at the head of the War Department would mean precisely the reverse of a peaceful condition for the country; because his further elevation—which means Republican division and confusion—is looked upon by monarchists as the opening of the joints in the armor of the Republic for the entry of their weapons, Boulanger and his ambitions are inimical to the free institutions of France, which unfortunately rest upon a Constitution woefully weak, in that it makes the administration the shuttlecock of legislative whim, instead of an independent arm and radical check upon the law-making power.

"THE POLICE POWER OF A STATE."

The San Francisco morning *Call* says:

The recent decision of the Supreme Court in the oleomargarine case establishes a principle of law which, so far as we know, is new. In Pennsylvania, a statute was passed absolutely prohibiting the sale, manufacture or possession of oleomargarine. Previously Congress passed the oleomargarine law, which, by imposing a specific license on manufactures and wholesale and retail dealers in oleomargarine, tacitly placed the business under the protection of Federal law. Relying upon this act, a number of persons engaged in the business of making and selling the article in Pennsylvania. They were prosecuted under the State statute, and convicted. They took an appeal to the United States Supreme Court, and that tribunal has now decided that it was within the power of the Legislature of Pennsylvania to prohibit the sale of an article which it deemed injurious, notwithstanding the implied authority conveyed by the United States license. In other words, it holds that the Federal law may be overridden by the police power of a State. This is in line with the decision in the case of the Kansas brewers, though it goes beyond the doctrine of that case.

This is the case upon which the Record-Union a fortnight ago remarked at length. We think our contemporary will find that the celebrated slaughter house cases of New Orleans, which were passed upon by the Supreme Court of the United States fully cover the Pennsylvania oleomargarine case; that the question of the protective efficacy of a Federal license was involved in the Kansas prohibition cases directly where the Supreme Court of the United States affirmed the power of the State to prohibit the sale of alcoholic liquors, notwithstanding the revenue tax was paid. The principle therefore laid down in the Pennsylvania case is not new. Indeed there is quite a long line of decisions, State and Federal, maintaining it.

On the 2d of May the Republican clubs of Iowa are to have their first State Convention, and the promise is that it will be the largest political gathering ever held in the Northwest. These clubs are all organized in affiliation with the National League of Republican clubs. But what is being done in California by Republicans to effect club organization? Outside of the one stately and pioneer club in San Francisco we hear of no activities in the matter of organization. The State Central Committee urged upon the party in every county to set up clubs to be related to the National League, but no action has been had, so far as we can learn, to make the suggestion effective. If the Republicans of California propose to join the procession it is fully time for them to step into line now. The permanent League club scheme is to be—is already, indeed—the working factor and the motor of the body of the party. It is the most practical, independent and direct method of building new strength into the party ever yet devised. There should be no longer delay in California. Organization should begin at once, and there is no better point in the interior for the beginning than in the Capital City.

The Cleveland *Leader* declares: "As a matter of justice to the common carriers of the United States, something should be done to prevent combinations of Canadian roads and their connections this side of the border from carrying through freight at lower rates than would be possible under the provisions of the interstate commerce law." Indeed! has the public mind come at last to see that the interstate commerce regulation is ineffective to prevent foreign lines availing of our legal regulations to do competitive injury to home roads?

PRESS EXPRESSIONS.

If a reduction of the present tariff will not make a greater "surplus" in the United States Treasury vaults, it surely will not reduce it. The biggest numbskull in the country knows that if the tariff on wool and other commodities—raw material or manufactured goods—should be reduced, the imports would be more than doubled, and, of course, the amount of duties that would be paid in at our numerous Custom-houses would be simply enormous. The truth of the matter is, the reduction of our present tariff would very quickly and effectually reduce the "surplus" that thousands of the mechanics and workingmen can boast of possessing, by flooding the country with goods manufactured by the pauper labor of Europe and Asia.—*Bridgeport Chronicle-Union.*

Whenever a Republican is announced as a candidate for President all the Democrats begin to splutter, and endeavor to show that he has no possible chance, and never should have any. It is a curious feature of the campaign just opening that the Democratic organs have no choice for the Republican nominee. They usually have kind words for a few of the prominent Republicans, believing that by their assistance a weak man may be nominated and their own chance of success improved. This time they seem to have no choice. The latest pronounced candidate is Senator Stanford of California, and his name, as the name of any other Republican, is like a red flag to the Democratic bull.—*Virginia City Enterprise.*

John P. Irish, President Cleveland's accredited agent, comes to Oregon to tell the wool-growers of this State that free trade in wool will not hurt them; that their wool will bring them just as much under free trade as under protection, if not a little more. Roger Q. Mills, Chairman of the Committee of Ways and Means of the House of Representatives, goes to Providence to tell the manufacturers of that city and of the East generally, that free trade in wool will give them cheaper wool, and enable them to make more money than they do now.—*Portland Oregonian.*

Women have their own way in everything, nowadays. They can even cross Patagonia if they care to do so, and have a good cross country seat. They have gone in such numbers to schools and colleges that they have familiarized even the readers of the newspapers with the term *alumnæ.* They are lawyers, they are doctors, they are dentists, they are preachers and teachers, there is even a portion of them which wills to stay at home and become mothers of children and good housewives.—*Oakland Times.*

The surplus in the National Treasury is the Democratic stock in trade. If that surplus should disappear before the coming campaign opens, the Democratic stock in trade would disappear.—*Tulare Register.*

"Golden at morning, silver at noon, and read at night," is the old saying about eating oranges. But there is something that is rightly named Golden, and can be taken with benefit at any hour of the day. This is Dr. Pierce's Golden Medical Discovery, literally worth its weight in gold to anyone suffering with scrofulous affections, impurities of the blood, or diseases of the liver and lungs. It is unfailing. By druggists.

Iowa statistics show that 953 women own farms in that State. Of that number only eighteen are carrying mortgages.

GENERAL NOTICES.

Advice to Mothers.—Mrs. Winslow's SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle. MWF1y

LOCAL INTELLIGENCE.

KATIE'S CONDUCT.

The Foundation of an Extensive Quarrel Among Neighbors.

The Police Court was graced yesterday morning by the presence of a large number of ladies who live on Ninth street, between F and G, and their friends, who were witnesses in a set of charges against Mrs. Lizzie Lutz, Mrs. Mary A. Eades and Mrs. John Dickinson.

Mrs. Lutz was charged by Mrs. Dickinson with disturbing the peace and battery; Mrs. Eades was charged by Mrs. Dickinson with disturbing the peace, and Mrs. Dickinson was charged with disturbing the peace by Mrs. Lutz.

Mrs. Lutz and Mrs. Eades stood alone as witnesses on one side of the controversy, and Mrs. Dickinson had on her side Mrs. Minnie Scott, Mrs. Imogene Coleman, Mrs. Alice Becker and Mrs. Clara Gemali. The testimony was decidedly conflicting, and the preponderance of evidence was in about the same proportion as the number of witnesses on each side. All of the cases were heard together except the battery case against Mrs. Lutz.

From the evidence all taken together it appears that Mrs. Lutz and Mrs. Dickinson had been friendly until a short time ago, when Mrs. Eades had occasion to severely chastise her daughter Katie. The girl, who is 15 years of age, went to the neighbors for sympathy and protection, as they claim, while her mother claims that they encouraged her to leave her home and remain away. Mrs. Lutz took sides with Mrs. Eades, and there has been a bitterness growing up among the people on the block, which culminated on Wednesday of last week in an open disturbance of the peace.

Mrs. Lutz claimed that Mrs. Dickinson struck her with a parasol, and Mrs. Eades corroborated the statement, while the witnesses on the other side testified that Mrs. Dickinson did not strike her, but only shook her parasol at her while talking to her, and that Mrs. Lutz called Mrs. Dickinson vile names. Mrs. Becker testified that Mrs. Lutz also abused her on the same day.

In the battery case Mrs. Scott, Mrs. Coleman and Mrs. Becker testified positively that they saw Mrs. Eades strike Mrs. Dickinson's little girl, while Mrs. Lutz swore positively that she never struck her at all.

The only part which Mrs. Eades appears to have taken in the difficulty seems to have been that she stood by Mrs. Lutz and clapped her hands and cried: "Good, good!" She was accordingly found not guilty of the charge of disturbing the peace.

Mrs. Dickinson was found not guilty of disturbing the peace, and Mrs. Lutz was found guilty of disturbing the peace and battery, and ordered to appear for sentence Saturday.

Metropolitan Theater.

Miss Annie Pixley had a good audience in size last night and one thoroughly appreciative. The lady is a charming comedienne, a vocalist of much ability and is intelligent and natural in her difficult character acts. The "Deacon's Daughter" is a light but pleasing comedy, with pathetic shadings that are true to nature and serve to make the wit of the play all the more sparkling. In Ruth and Mabel she gives us fresh, chaste and artful examples of acting of a good type, not exalted or sensational, but true to nature and appealing to the best sentiments of the intelligence and the sensibilities of the heart. The company is competent throughout. Indeed, Mr. Daly's Isaiah is a consummate work, and scarcely second to it is the low comedy part of Mary, taken by Mary Thompson. That of Tomkins, by Mr. Cullington, is unnatural, extravagant in conception and extravagantly played. It is the only role that needs to be thoroughly cut and revolutionized. To-night will be the last of the company here, when it will present the drama of "The Charity Girl," with Miss Pixley as Carrie Ripe. The scenes are laid in England, and the time is the present.

New Incorporations.

Articles of incorporation have been filed with the Secretary of State of the Coranado Railroad Company, the purpose of which is to build a railway in San Diego county, starting at the water front on Coranado beach and touching at various points. The estimated length of the road is forty miles, and the Directors are H. L. Story, Jacob Gruendike, E. S. Babcock, Joseph Collett and Heber Ingle. Capital stock, $500,000.

Also, of the Catholic Ladies' Relief Society, of the Sacramento Diocese, with Mrs. Ellen Ryan, Miss Emma A. Hughes, Miss Addie L. Hughes, Mrs. Nettie Kate Leake, Miss Nettie M. Hopley, Miss Eliza M. Wittenbrock, Mrs. Mary Jane Magill, Miss Nettie M. Ogden and Miss Mary F. Talbot. The object of the Society is to extend aid to the poor and needy of the Roman Catholic Church of the Sacramento Diocese.

Court Notes.

Messrs. Beatty, Denson and Oatman, attorneys for C. A. Jenkins, executor of the estate of Charles W. Pierce, filed his final accounting in the Superior Court yesterday.

Judge Armstrong yesterday overruled the demurrer in the case of the White Sewing Machine Company vs. W. W. Cone.

Frederick Frolich was admitted to citizenship in Department Two of the Superior Court yesterday.

Messrs. Taylor & Holl, attorneys for the defendants in the case of Frank H. Slack and Alvera Slack vs. Daniel Flint and M. Barber, yesterday filed their answer to the complaint, asking that all moneys received since the assignment was made be paid into Court; that a receiver be appointed to take charge of all the property, and that the defendants recover costs.

Who Is Sigourney?

Several days ago the RECORD-UNION printed a dispatch from Albany, N. Y., giving an account of the movements of one George Sigourney, who was said to be on his way home to Sacramento after a wedding tour of six years. He is reported to be the son of a wealthy gentleman living in this city and claims to have spent about $75,000 in his travels. A diligent inquiry fails to disclose any person in this city by the name of Sigourney who fills the description of the father of the traveler as given in the dispatch. The probability is that the whole story is a "fake," or that the reporter at Albany has been duped.

Minor Police Court Cases.

In the Police Court yesterday morning Grace Cook and Maria Haggerty pleaded not guilty to the charge of being drunk. The former was convicted and sentenced to pay a fine of $10 or serve ten days in jail, and the latter was discharged. Ah Sing, Ah Ling, Ah Hip, Ah Tom, Ah Ching Lee and Ah Fong each forfeited a deposit of $5 for failing to answer to the charge of violating the cubic air statute. Ah Sing pleaded guilty to the same offense and was fined $5, in default of the payment of which he will serve five days in jail. The charge of assault against Rosa Domentini, preferred by her son, was dismissed on his motion.

IMPROVEMENT ASSOCIATION.

Reports of Committees—The Opening of the Exposition Building.

The Executive Committee of the Improvement Association met at their rooms last evening, a quorum present, Dr. G. L. Simmons presiding. E. K. Alsip, a member of the State Board of Trade, being absent from the State, the committee designated Albert Gallatin or Dr. G. L. Simmons to represent the Association at all meetings until his return.

STATE BOARD OF TRADE.

The following letter was read and placed upon file:

OFFICE CALIFORNIA STATE BOARD OF TRADE, SAN FRANCISCO, April 25, 1888.

To Executive Members—DEAR SIRS: Please take notice that the next meeting of the Executive Committee will be held Tuesday, May 8th. The meeting heretofore announced to be held May 1st was postponed for one week. A full attendance is urged. A special committee representing the G. A. R., Captain Scott and Judges Buckles and Gibson, will be present to discuss the advisability of making a California exhibit at the National Encampment next fall. The Publication Committee will report. Action taken on teachers' excursions and other important subjects will be considered; hence, it is hoped that every member will attend. Very truly yours,

JOHN Q. BROWN, General Manager.
J. M. DAVIES, Secretary.

On motion the Sacramento delegate was instructed to attend and report the action of the State Board relative to teachers' excursions to this Association at its next meeting.

MANUFACTURING INTERESTS.

J. M. Avery, Chairman of the Committee on Manufacturing Interests, said:

"Sacramento city is in the midst of the largest and most productive fruit section in this State, and thousands of dollars' worth of fruit goes to waste annually, because it ripens too fast for export and the facilities for canning are inadequate to handle the crops. As to the benefits derived from such industries, take Santa Clara valley for an example. It has several canneries, three of which are in the town of San Jose. They are money-making establishments, a perfect boon to the fruit-raiser. The committee has decided to organize a company, to be known as the Sacramento Fruit Packing, Canning and Drying Company. To that end they have secured a refusal for thirty days of the St. Louis Brewery property, corner of Sixth and G streets, for $8,000. It is admirably located, as fruit can be unloaded from cars at the front doors of the warehouse. The lot is 150x160. A two-story brick building, with cemented cellars beneath, extends from G to the alley, 160 feet, is 30 feet in width, in excellent repair, and will need but little changing to adapt it to the business. The buildings on this property cost originally over $20,000. It contains an engine with capacity sufficient for all power purposes, and no better location for the handling of fruit and the product of the cannery could be found within the city limits. The projectors propose forming a corporation, say of 5,000 shares, at a par value of $10 each. The property can be purchased by a payment of $3,000 cash, and leaving a mortgage of $5,000 thereon for a term of years at a low rate of interest. Surely no better opportunity for a safe investment was ever offered in this city, and the capital stock will all be spoken for before the same can be issued. This, besides giving the fruit-growers an opportunity to save every pound of their fruit, will give employment to a hundred or more white men and women, boys and girls."

He said that they were none too soon in securing their option on the property, for on the day following it could have been sold at an advance to a party who wished to make of it a cooperage. The parties who have the matter in charge were out half an hour yesterday, and in that brief space of time six individuals subscribed for 700 shares of the stock. Those wishing stock can secure the same of W. D. Maydwell, at 309 J street, or of J. M. Avery, 616 J street.

The following circular has been issued:

In issuing this prospectus the Committee on Manufacturing Interests desires to state that from all the information it has gained on the subject of fruit-canning and drying, there is no industry more important locally, and none that offers greater inducements to those looking for an investment which will pay large returns in the near future. This view is fully sustained by the experience of those who have been engaged in the business for the past four years in other places, and which as to location, etc., do not possess advantages equal to those of Sacramento.

Our city is the center of the largest fruit-growing district in the State, and as a point of distribution has facilities superior to any other.

It is hoped our citizens will second the efforts of the committee in their laudable endeavor to further the interests of Sacramento, and subscribe liberally to this enterprise.

P. E. Platt, Joseph Steffens, G. W. Hancock, F. F. Tebbets, A. S. Hopkins and J. O. Coleman spoke in favor of the proposed cannery, all agreeing that here was an excellent opportunity for the starting of such an enterprise, and said they thought the capital stock would easily be disposed of to business men and fruit growers.

The Secretary reported that at the adjourned meeting of the special committee to arrange for the opening of the Permanent Exhibition, they recommended as follows:

"That the rooms occupied by the Emigration Association and the Improvement Association be vacated on the 1st of May and that in the future all the meetings of the Association be held in the Exposition building.

"Also, that the opening be devoid of display or parade, but confined strictly to business.

"As a feature of hospitality they recommend a cold lunch served in the building with native wines, the meeting to be composed of delegates from this Association, visiting delegates and representatives of the press. They also recommend that a register be provided for the building."

The Executive Committee received the report and adopted the recommendations made by the special committee.

A CIRCULAR LETTER.

The committee has adopted the following, which will be printed in circular form and distributed through the mail:

IMPROVEMENT ASSOCIATION OF SACRAMENTO CITY AND COUNTY, April 27, 1888.

DEAR SIR: The building for the exhibition of the products of Central and Northern California having been completed, the time has arrived to commence efforts to make said exhibition a success, and to accomplish this purpose we respectfully urge upon citizens of San Joaquin, Calaveras, Amador, El Dorado, Placer, Nevada, Tehama, Shasta, Colusa, Yolo, Solano, Plumas, Sierra, Sutter, Yuba, Butte and Sacramento such prompt action as will insure a good display of the resources of these great counties.

The building is well adapted for exhibition purposes, and is situated so near to the great passenger depot at Sacramento that the large number of immigrants who necessarily pass through this railroad center each day cannot fail to be attracted and influenced by the exhibition.

It is also contemplated to encourage the distribution in the building of all pamphlets, maps or advertisements calculated to give land seekers reliable information concerning the lands and resources of all the counties in affiliation.

The 2d of June has been selected as the opening day of the exhibition, and we earnestly invite you to be present on that occasion, and urge your co-operation in obtaining an exhibit that will be creditable to your county.

The Committee on Building was instructed to procure flags and necessary apparatus to equip the new building.

Bossism in Yolo.

The Woodland *Mail* of yesterday contained the following call for a mass convention, which is signed by over one hundred citizens: "*To the Citizens of Woodland:* In view of the fact that the bosses of both the Democratic and Republican parties have sold out those parties to the Yolo County Liquor Dealers' Association, we, the undersigned voters and taxpayers, hereby enter our protest against such disgraceful action. In the name of true Democracy and Republicanism we denounce it. In the name of honor and fairness, in the name of manhood and the right to express our choice in the selection of measures and men to represent us, we protest against it. In behalf of moral and political reform, of home and fireside and every endearing influence that these suggest, we, the undersigned Committee of One Hundred, call upon the voters of Woodland to rise up and overthow the tyrannous boss rule that has fastened itself upon our local politics; and to this end we urge upon every voter, regardless of party affiliation, to unite with us in a mass convention at Prior's Hall, on Friday evening next, April 27, 1888, at 7:30 o'clock, to nominate a Citizens' Anti-boss ticket to be voted for at the coming municipal election."

THIS evening our stores will remain open until 9:30 o'clock to accommodate those who wish to buy picnic goods. Hundreds of ladies' picnic hats, trimmed and untrimmed, at Red House. *

MANY prominent citizens of Sacramento attest to the virtue of Arcadian Mineral Water. Hall, Luhrs & Co., sole agents. *

ANNIE, be ready for the Chosen Friends' picnic May 17th, as theirs is the best. Mike. *

Count Valensin's Horses.

A telegram from New York gives some account of the sale of a lot of trotting stock from the breeding farm of G. Valensin, at Pleasanton, in this State. Mr. Valensin was formerly a well-known resident of this county, and the sale will be a matter of interest here. The dispatch says:

"The feature of Peter C. Kellogg & Co.'s combination sale of trotting stock to-day was a consignment from the breeding farm of G. Valensin, at Pleasanton, Cal. Although his animals are younger than those which generally sell to the best advantage in the market, Eastern buyers paid him a high compliment by the prices bid for his yearlings, two-year-olds and stallions. Owing to the lateness of the breeding season of some sold, disappointing prices were obtained. The higher figures are as follows: Wahida V. Brown, a four-year-old filly by Crown Point and Flight, by Buccaneer, $1,600; Sidney Smith, a bay two-year-old by Sidney and Young Highland, by Atherton, $1,400; Rovana, a bay two-year-old filly by Sidney and Ella Roy, by Belmont, $1,100; George V., a bay two-year-old by Sidney and Flirt, $1,070; Buccaneer, $1,070; Casselly, a bay filly, two-year-old, $510; Mariana, a bay yearling filly by Sidney and Mary, by Buccaneer, $470. All the buyers were Eastern men."

The Statistician.

The "Annual Statistician and Economist" for 1888, published by L. P. McCarty, San Francisco, is out and being delivered to subscribers. This office has used the annual issues for twelve years, and found it an almost indispensible ready reference book, reliable, full and in every way desirable. The volume for 1888 is up to the standard long since established, and besides makes an advance in several respects by the introduction of new statistical matter of wealth production, history, finances, technical explanation, biography, geography, science and art statistics, political tables and returns, mechanical progress, discovery, etc. There is not, therefore, any hesitation in commending Mr. McCarty's work as one all it is represented to be and very useful in office, house or shop.

The best place in California to have your printing done: H. S. Johnston & Co's, 410 J St., Sacramento, Cal.

Odds and ends in Shade Hats and fancy Straws are put on the Millinery Counters this morning at the uniform price of 9 cents.

Ruchings, ruchings, ruchings

Not the quantities merely, but such styles!

No wonder that they are selling rapidly. No wonder that we are obliged to call the telegraph into requisition in order that when you come later there will be no disappointment.

Just the dainty, odd, stylish little ruchings that everyone wants!

A most surprising summer dress stuff, considering the price.

A heavy, corded cotton net, with fine lace-work between the meshes, and handsomely printed in such combinations as blue flowers on white ground, black figures on delicate pink ground, black on cardinal, etc.

The cloth is thick and heavy and something entirely original.

Price, 10 cents per yard.

Metallic Braids and Dress Sets of no ordinary sorts have come.

The same goods, in fact, "Redfern" and other men dressmakers are using on their plain cloth costumes.

In nearly all the patterns the tinsel is combined intimately with some color, giving a puzzling effect, perhaps as much like a changeable silk as anything else.

They are worth seeing.

Wide Crepe de Chine Scarfs for ladies' wear are again in style.

One fashion writer speaks of the following novel ways in which they may be worn:

Around the neck with full bow in back.

Small knot on neck, ends caught at the waist with a pin and thence left to fly.

As a chemisette to be worn with open-front jacket.

Around neck, the ends caught up on the bust so as to leave a full draping effect.

One advantage of Crepe de Chine Scarfs is that they can be washed with ordinary soap and water, and notwithstanding the delicate colorings will last indefinitely.

Prices, with silk fringe, 75 cents and $1. Some smaller sizes, with quaint, hand-painted designs on the ends, $1.

French Sateens—and in the best of this season's patterns, 35 cents.

In its primitive state French Sateen is nothing more than a gray cotton cloth, and, in addition to the square weave there is a diagonal thread thrown in, giving the twilled effect. The quality of cotton is the finest that nature produces. The cloth is bleached by chemical process; the face is passed rapidly over a red-hot cylinder, giving the surface an extraordinary smoothness. The material is then ready for printing. Previous to this the designers submit patterns in pencil drawings to the warehouses in Paris. The designs selected are engraved on copper rollers, through which the plain cloth is passed; a different roller being made for each color in the pattern. The next processes are washing, drying, stiffening and folding. At the end of each season all the copper engravings, with the exception of a few staple figures, are destroyed and new ones made. This is why each season shows so many novelties.

The American Sateens, although not equal to the French, are excellent stuffs and cost less, our prices ranging from 12½ to 25 cents.

SERIOUS ACCIDENT AT A FRENCH CELEBRATION.

Boulangist Riot at Nancy—The Emperor Much Better—Churchill's Speech.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

TWENTY INJURED.

Serious Accident at a Celebration at Agen, in France.

PARIS, April 26th.—President Carnot arrived to-day at Agen, where he laid the foundation-stone of the new Lyceum. The President met with an enthusiastic reception. The day's ceremony was marred by a serious accident. A platform which had been erected for the accommodation of guests collapsed, and twenty persons were injured. There were several hundred persons on the platform at the time of the accident.

TENDS TO IMPROVEMENT.

Continued Hopeful Change in Emperor Frederick's Condition.

BERLIN, April 26th.—A bulletin issued this morning says: "The Emperor slept well last night. His fever is very slight, and the general condition tends to improvement."

The Emperor rose at noon and walked into a room adjoining his bed-room. The doctors are in hope that he will be able to drive out by Monday.

BETTER IN EVERY WAY.

BERLIN, April 26th.—During the day the Emperor has been out of bed four hours. His temperature is now almost normal. The sense of taste, which he lost during the critical period, has returned. This is regarded as an exceptionally favorable sign. He seems better in every respect, and his appetite is remarkable. He has again begun to hear State reports. The physicians are of the opinion that the crisis has passed.

BOULANGIST RIOTS.

Nancy the Scene of a Violent Disturbance Last Night.

PARIS, April 26th.—A dispatch from Nancy says a riot broke out there this evening, a mob of Boulangists attacking the students with clubs, stones and other missles. When the dispatch was sent the police were trying to disperse the rioters.

QUIET RESTORED.

MIDNIGHT.—A later dispatch from Nancy says: The disturbances continued to a late hour. A number of police were injured, and several rioters were arrested. The crowd finally dispersed, and the town is now quiet.

AN ENTERING WEDGE.

The Bill to Reform the British House of Lords.

LONDON, April 26th.—There was a long discussion in the House of Lords this evening on Earl Dunraven's bill to reform that body. The main features of the bill are: Peers of creation shall be entitled to seats in the House of Lords by election; they may resign their seats to become eligible to the Commons. Provision is also made for the admission of Colonial, Catholic, Dissenting and Scientific representatives.

Lord Salisbury objected to the bill, as an abandonment of the firm rock of experience for a plunge into the unknown. The Government was willing to consider the admission of life Peers and other needful reforms, for which they would introduce a separate bill.

Lord Dunraven thereupon withdrew his bill.

Queer Fits and Starts.

The fits and starts—using these words in their literal meaning—of the nervous people often strike the beholder as ludicrous. The nerves of hearing of such unfortunates are painfully acute, and impinged by abrupt, unexpected noises, lead them sometimes to perform antics worthy of a jumping-jack. At the root of nervousness, in most instances, is non-assimilation of the food, and consequently innutrition of the nerves as of the other tissues of the body. This prolonged is, of course, productive of serious nervous disease. The remedy is Hostetter's Stomach Bitters, that invigorate the stomach and enables it to perform its functions properly. Soon after commencing a course of it, it will be found that the nerves grow more tranquil by day, nightly repose becomes less interrupted, and appetite more vigorous and satisfying. These are the initial indications, followed by the complete restoration of nervous vigor. The Bitters also cure fever and ague, liver complaint and constipation.

I venerate old age; and I love not the man who can look without emotion upon the sunset of life, when the dusk of evening begins to gather over the watery eye, and the shadows of twilight grow broader and deeper upon the understanding.—*Longfellow.*

What Your Friends and Neighbors Say on a Matter of Vital Importance.

Below will be found a sample of the multitude of letters of encouragement Messrs. H. H. Warner & Co., of Rochester, N. Y., daily receive. The subjoined unsolicited testimonials are from your friends and neighbors, ladies and gentlemen you know and esteem for their honor and straightforwardness, and who would scorn to be a party to any deception. What has been done for others can be done for you, and it is folly, nay suicidal, to longer suffer when the means of recovery lie at your very door:

Edwin E. Webster

JACKSON, Cal., September 28, 1887.—Last December one of my boys, aged three and a half years, was troubled with what seemed to be a bad cold. He grew worse and I called a doctor, who called it dropsy, and began to treat my child for it. He continued to grow worse, and I got another doctor, who analyzed his urine and pronounced it Bright's disease in a bad form. All the doctors said my boy would die, and he looked as if he surely would. I began to give my boy "Warner's Safe Cure" without saying anything to the doctors. In three days his urine showed a change, and an analysis made three weeks later indicated a perfect condition of his urine. Every doctor who heard of his case said that he would die sure; but he took "Warner's Safe Cure" and is alive, if not well, which is more than could have been said if the doctors had been left to stuff him.

WEST BUTTE, Cal., December 28, 1887.—My daughter has taken "Warner's Safe Cure" and received great benefit therefrom. I am never without it in my house.

SAN FRANCISCO MARKET.

SAN FRANCISCO, April 26th.

FLOUR—Net cash price for California: Extras, $3 80@4 ₩ bbl; Superfine, $2 70@3.

WHEAT—The market is inactive, but strong. Holders ask $1 35 ₩ ctl for No. 1 grade and will accept no less. These figures preclude shipping trade. Choice milling parcels are held at $1 37½ ₩ ctl.

BARLEY—There was an upward turn to the market this morning, and an advance of about 5c per ctl was established, with the prospect that prices would not only be maintained, but perhaps further marked up. We quote: Feed, good to choice, 85@87½c; common, 82½@83¾c; Brewing, 90@97½c; Chevalier, common, 85c@$1 ₩ ctl.

OATS—There is a firmer feeling to the market, more on account of the strength developed in feed Barley than anything else. Buyers do not enthuse in the premises and sales are somewhat slow. Still, it looks as if better prices were near at hand. Surprise, $1 55@1 65; choice feed and milling, $1 37½@1 40; No. 1, $1 35@1 37½; No. 2, $1 30@1 32½; off grades, $1 25@1 27½; Black, $1 30@1 32½ ₩ ctl.

CORN—Prices are somewhat irregular, owing to more difference than usual in the quality of offerings. Quotable at $1 27½@1 30 for small and $1 30@1 32½ ₩ ctl for large Yellow. Sales of White are reported at $1 37½ ₩ ctl.

CRACKED CORN—Quotable at $30 ₩ ton.

VEGETABLES—Changes to-day were not important. Asparagus moves off well at quotations and Rhubarb also finds appreciative custom. The supply of Green Peas continues liberal, and consumers have the benefit of cheap prices. Asparagus, 75c@$1 ₩ box for ordinary kinds and $1 25@1 75 for fancy quality; Rhubarb, 75c@$1 25 ₩ box; Green Peas, 50@75c ₩ sack for common and 1½@2c ₩ lb for sweet; String Beans, 10@15c ₩ lb; Wax Beans, 8c ₩ lb; Los Angeles Tomatoes, $3 50@4 ₩ box; Cucumbers, 75c@$1 50 ₩ dozen; Turnips, $1 25 ₩ ctl; Beets, 75c@$1 25 ₩ sack; Carrots, feed, 30@50c; Parsnips, $2 50@3 ₩ ctl; Cabbage, $1 25@1 50 ₩ ctl; Garlic, ½@1c ₩ lb; Cauliflower, $1 25@1 50 ₩ dozen; Dry Peppers, 6c to 8c ₩ lb.

FRUIT—There was a trifling improvement in Strawberries this morning. Dealers met custom freely at bidding rates, for fear of having stock left on hand. Some very few boxes of extra choice quality sold at $1 above our figures, but the quantity was too small to justify the rate as quotable. Cherries are coming along quite slowly. It was expected that the market would be well furnished by this time, but so far no round consignments have been received. Gooseberries are not quick of sale. We quote: Cherries, 12@12½c for white, and 20@25c ₩ lb for black; Gooseberries, 6@8c ₩ lb; Strawberries, $4 50@5 50 for Sharpless, and $5 50@6 ₩ chest for Longworth; California Oranges, $2@3 50; do Navel, $2 50@5 ₩ box; Tahiti Oranges, $20@24 ₩ M; Mexican Limes, $4@5 ₩ box; Lemons, Sicily, $4 50@5; California Lemons, $1 50@3 ₩ box; Bananas, $2@3 50 ₩ bunch; Pineapples, $2 50@4 ₩ doz.

DRIED FRUIT—We quote prices as follows: Sun-dried Apples, 6½c ₩ lb for sliced and 5½c for quartered; Alden 8@9c; Apricots, 13c for sun-dried bleached; do, sun-dried, 8@9c; Blackberries, 11@13c; Figs, 5@6c for pressed, 3@4c for unpressed; Smyrna Figs, 13@16c for layers, and 7@8c for kegs; Nectarines, 8@10c; Peaches, 18@22½c for peeled, and 8@9c for unpeeled; Pears, 4@5c for whole and 7@7½c for sliced; machine-dried, 9@10c; Plums, 10@11c for pitted and 4c for unpitted; German Prunes, 8@9c; French Prunes, 8@11c ₩ lb; Raisins, London Layers, 2 25 ₩ box, with 25@75c advance for fractions; Common, $1 25@1 50 ₩ box.

BUTTER—Is in good demand at full figures, with occasional sales at a small advance. We quote: Fancy, 26c; good to choice, 24@25c; common, 20@23c; Eastern, 17@21c ₩ lb.

CHEESE—Continues to show declining tendency. We quote: Good to choice, 11½@12c; common grades, 10@11c; Eastern, ordinary to fine, 10@16c ₩ lb.

EGGS—Retailers are not buying domestic product freely, and stocks are showing some accumulation. The Eastern article is offered so much cheaper through competition that it is taken in preference, being almost equally as good for many uses. We quote: California, 19@2?c for select ranch, and 17@19c ₩ dozen for store lots; Eastern, 14@16c ₩ dozen.

POULTRY—Prices undisturbed. RAILROAD COAL.

A Heavy Item of the Southern Pacific Expenditure.

[San Francisco Call, April 26th.]

The most important question with the Southern Pacific Company just at present is the scarcity of fuel. There being no coal supply of any magnitude in the State the Directors are compelled to derive their requirements from foreign sources. The greater portion of the fuel used between Ogden and Truckee comes from mines in Wyoming, or from mines on the Denver and Rio Grande system. A portion of the coal used in Arizona, between El Paso and Los Angeles, comes from mines on the Santa Fe road, and costs, delivered at Deming, $6 40 per ton. Another source of supply is a big mine in Indian Territory, which produces a very superior quality of coal, which is delivered by the Missouri and Texas Pacific at El Paso. This coal costs $8 40 per ton, but its superior quality renders it more desirable than an inferior fuel at a lower figure. The Salinas mines, down on the Mexican International, are too far away for any use on the Pacific system, though they are, strange to say, the only coal deposits of any importance which the Southern Pacific Company has yet struck. In this respect it is less fortunate than any of its competitors. The Northern Pacific, Union Pacific, Denver and Rio Grande and Atchison have all a plentiful supply of coal at one point or other along their lines.

The Southern Pacific Company, however, despite its enormous length of track and its policy of building feeders through new country, has never yet struck a coal mine. That is the reason why C. P. Huntington and Charles Crocker paid so extended a visit to Washington Territory and British Columbia. The Carbon Hill mine, which they already own, is on a branch of the Northern Pacific. From it is taken about 20,000 tons monthly, which is used chiefly to supply the ferries, the lines in the Sacramento and San Joaquin valleys, and the Central Pacific as far east as Truckee. More coal would be taken from this mine could the railroad company haul it. But they have as much as they can do at present, and the project is being discussed by the Southern Pacific Directors of building a short line from the mine to the Northern Pacific at Seattle. On the Oregon line from Red Bluff north to Ashland wood is burned. It is proposed, however, after next month to burn wood from Sacramento north, using coal only on passenger trains. The same rule will go into effect on the Central Pacific from Sacramento east. The Los Angeles Divison is supplied from the Wellington mines at an enormous cost, the colliers landing the coal direct at Wilmington.

In the last Central Pacific report it was shown that the average price of coal throughout the system was $6 03 per ton. The average price on the Chicago and Alton, placed in the engine's tender, is only $1 60 per ton. The Baltimore and Ohio coal supply only costs 66 cents per ton in the tender. Speaking of the cost of fuel on the system, Superintendent Fillmore said yesterday that if the Southern Pacific Company could obtain coal at anything like these rates, there would be sufficient surplus income to permit the company declaring a dividend of about 6 per cent. on the capital stock.

Some idea of the quantity of coal used on the systems may be gathered from the same source. During the year 1887 204,206 tons were burned. At the rate of $6 03 per ton, this would give the enormous sum of $1,231,362 18, or about one-thirteenth of the entire earnings.

Another disadvantage which the company suffers from is the lack of water in portions of its system in Arizona, New Mexico and in Texas. A regular iron water-tank on its car forms a portion of the train from Indio south. This, of course, adds to the operating expenses. Water is, of course, found in Arizona, but it is so impregnated with chemicals that its use destroys the interior of the locomotive boilers. A similar character of water is found in the Tehachapi Pass. It very frequently happens that engines used in the Yuma division have to be returned for repairs after having been only nine months in use.

A FAIR trial of Hood's Sarsaparilla for scrofula, salt rheum or any affection caused by impure blood or low state of the system, will be sufficient to convince any one of the superior and peculiar curative powers of this medicine. Buy it of your druggist; 100 doses one dollar.
